tasks are:
1. Literature review and identification of requirements;
2. Buildings Monitoring;
3. Buildings Modelling and simulation;
4. Optimization of energy sources and associated storage;
5. Energy management of flows;
6. Dissemination and communication.

6. EVALUATION CRITERIA AND BONUSES

6.1 Evaluation Criteria

The evaluation will be based on Curriculum Evaluation (AC) and Interview (E) to the three-best classified in the AC.

All admitted applications will be ranked according to the weighted average of the score obtained on 1 to 100 in each of the following evaluation criteria:
(i) absolute merit of the Curriculum Vitae (M);
(ii) suitability of the candidate’s profile to the work plan (PT);
(iii) additional characteristics (CA), such as the motivation shown for the work to be carried out and availability to start the scholarship.

The three-best candidates classified in the Curriculum Evaluation (AC) will be interviewed. In Interview (E) the parameters to be considered are the following:
(i) Communication skills (CC)
(ii) Motivation and Interest for the workplan (MI).

The classification formula for the positioning of candidates in the Curriculum Evaluation (AC) will be as follows: \( 0.4 \cdot M + 0.4 \cdot PT + 0.2 \cdot CA \). If there are no candidates with a Curriculum Evaluation greater than 60\%, the Jury reserves the right not to award the scholarship. Regarding the classification formula for the positioning of candidates in Interview (E) will be as follows: \( 0.4 \cdot CC + 0.6 \cdot MI \). The non-appearance in the interview is considered as a withdrawal by the candidate.

In order to decide the granting of a PhD scholarship, applicants will be ranked according to the weighted average of the score obtained in each of the two criteria, according to the following formula:
Final classification = ( 0.8 × AC) + ( 0.2 × E)

For tiebreaking purposes, the final ranking list will be based on the scores assigned to each of the evaluation criteria in the following order: Curriculum Evaluation (AC) and Interview (E).

Important note for candidates holding a degree issued by foreign higher education institutions:

- In the case of academic degrees awarded by foreign higher education institutions, and to guarantee the principle of equal treatment among applicants with national and foreign academic degrees, the applicants must submit proof of recognition of such degrees and the conversion of the respective final average grade to the Portuguese grading scale under the terms of the applicable legislation.
- Applicants with recognized foreign academic degrees who do not submit a proof of conversion of the final average grade to the Portuguese grading scale will be evaluated with the minimum grade of 0 (zero) points in criterion Curriculum Evaluation (AC).
- In any case, scholarship contracts with applicants whose diplomas have been issued by foreign institutions will only be concluded upon presentation of proof of recognition of academic degrees and conversion of the final average grade, as indicated above.

Applicants whose application is scored with a final grade lower than 45 points are not eligible for scholarship award.
